San Luis Obispo, CA

### ACHIEVEMENTS:

- Conceptualized and collaborated as a team of over 15 to solve the right problems for clients.
- Plotted out and formatted a collection of work as an anthology for a publication.

### ACHIEVEMENTS:

- Designed a 'Subject Access Request' platform in collaboration with over 10 multidisciplinary teammates including engineers, UX/UI designers, UX researchers, and product managers resulting in an easy to utilize and understand product for the company, business partners, and data subjects.
- Assembled and coordinated multiple user flows and usability tests with over 20 users, concluding with meeting and excelling past business requirements.

### ACHIEVEMENTS:

- Formalized and applied updates to internal website via storyboards, wireframes, and prototypes in collaboration with other designers, product managers, and researchers: resulting in greater ease of use and visual consistency of information.
- Amplified sales by producing video overlays for a conference promotional video.

### VISUAL DESIGN CERTIFICATES

**City College of San Francisco**
